The U.S. Constitution: <http://www.usconstitution.net/const.html>

A few points to remember!

Keep in Mind: Social Security is insolvent, Medicare is insolvent, and the U.S. Post Office was One billion plus in the red for 2008 and is projected to be 5-7 billion in the Red for 2009. Amtrak has been losing over a Billion dollars a year and they want to keep it open and now YOUR Government wants to require you to buy Health Insurance!!!

WHERE IN OUR CONSTITUTION DO WE GRANT OUR GOVERNMENT THE POWER TO REQUIRE US TO BUY HEALTH INSURANCE OR ANY OTHER PRODUCT!!!

If WE allow this, What is next? How about the Salt Police, Fat Police, or a SUV Tax.

A few quotes from our founders!

What is the Constitution? Many adults have not read the Constitution since high school and many of us including myself did not understand what we were reading or recognize the importance of the Constitution. Today I am still in awe when I look at what our founders put together over 200 years ago.

So what is the Constitution? In simple terms, it is a document that tells our Government what they can and cannot do. Remember, the Government works for We the People. We granted our Government, our elected officials limited powers and those powers are listed in the Constitution. Our framers were concerned about our elected officials getting to much power so we have a written document to control them.

Power corrupts, it is human nature and our founders understood this simple issue.

Thomas Jefferson stated “let no more be said of confidence in man, but bind him down from mischief by the chains of the Constitution.” Now think about that for a second.

Bind him down from mischief by the chains of the Constitution.

The constitution is about providing freedom from abuse by those in authority. It was designed to control something which has not changed and will not change; Human nature. Quote from the 5000 year leap. P121.

James Madison stated: “you must first enable the government to control the governed and in the next place oblige it to control itself.”

Madison also stated. “I believe there are more instances of abridgement of the freedom of the people by **gradual and silent encroachments of those in power**, than by violent and sudden usurpation. This danger ought to be wisely guarded against.”

Think about this statement. **A gradual and silent encroachment...** a Nudge which at some point will become a shove and then you can say good bye to your individual rights and freedoms. Can you say: Cass Sunstein current Regulatory Czar.

Laws should be understandable and stable.

James Madison wrote “it will be of little avail to the people that the laws are made by men of their own choice if the laws be so voluminous (large) that they cannot be read or so incoherent that they cannot be understood: quote from 5000 year leap, p175. Does anyone reading this think our founders would be against 1000 plus page bills.

George Washington Stated: “Government is not reason, it is not eloquence, it is force! Like fire, it is a dangerous servant and a fearful master.”

After reading a few of these quotes from our founders, clearly one can see that our founders were concerned about the Government having too much power and control. **Our founders understood that a Countries Greatness, that America’s Greatness will rise and fall with the people.** They understood that humans long to be free and that if people were free to make their own choices, free to succeed, free to fail, that eventually a Country of free people would rise above and the potential would be unlimited. And just look at all the things Americans have accomplished and invented in the last 200 years!!!

But in the last forty years, we have lost our way. Our elected officials have strayed from our founding documents and WE THE PEOPLE have placed too much trust in our elected officials and we have been asleep at the wheel.

Quote: 5000 year leap: p119. “The founders had more confidence in the people than they did in the leaders of the people, especially trusted leaders, **even themselves.** They felt the greatest danger arises when a leader is so completely trusted that people feel no anxiety to watch him”. End quote.

We are all guilty of being asleep at the wheel but no more!

Welfare and other Government give away programs are more examples of our Government not following our Constitution.

Jefferson Wrote: “if we can prevent the government from wasting the labors of the people, under the pretense of taking care of them, they must become happy.”

Franklin wrote “to relieve the misfortunes of our fellow creatures is concurring with the deity: it is godlike, but if we provide encouragement for laziness and support for folly, may we not be found fighting against the order of God and Nature, which perhaps has appointed want and misery as the proper punishment for and caution against, as well as necessary consequence of idleness and extravagance? Whenever WE attempt to amend the scheme of the providence and to interfere with government of the world, we need be very circumspect, lest we do more harm than good.

Samuel Adams said they had done everything possible to make the ideas of socialism and communism unconstitutional. He quotes “the utopian schemes of leveling (re-distribution of the wealth) and a community of goods (central ownership of the means of production and distribution), are as visionary and **impractical** as those which vest all property in the crown. (These ideas) are arbitrary, despotic and in our Government, **unconstitutional.**

Clearly our Government has strayed from the Constitution.

Where in the Constitution do we grant our Government the power to take from one group and give to another? Progressive call this Economic and Social Justice!

Where in the Constitution does it state the right to bear arms but with restrictions?

Second Amendment: a well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

We have the right to bear arms to protect us from a tyrannical Government and it is the very reason our Military Oath is to the Constitution and not to any one person. Such as a King or Queen. But yet the courts have slowly eroded our gun rights.

George Mason stated “When the resolution of enslaving America was formed in Great Britain, the British Parliament was advised by an artful man, who was Governor of Pennsylvania, to disarm the people; that it was the best and most effectual way to enslave them, but that they should not do it openly, but weaken them and let them sink gradually”. Quote from Glen Beck’s common sense, p79. Where in the Constitution does it state the Government can charge Interest, penalties and even seize property for back taxes or late taxes?

Article One, Section 8, clause One: The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defense and general Welfare of the United States; but all Duties, Imposts and Excises shall be **UNIFORM** throughout the United States;

Sixteenth Amendment: The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

Can they set you up on a payment plan for late taxes? Absolutely yes, but they don’t have the authority to seize property or charge interest and penalties, but they do!

Question: where in the constitution do we grant our Government the authority to penalize us with a so called Sin Tax just because they disagree with our personal choices?

They tax Cigarettes and Alcohol at higher rates than other products and are considering a so called Fat tax because they disagree with our personal food choices.

Are these taxes Uniform?

Answer: NO! Therefore they are Un-Constitutional!

Eminent Domain is another scary example of our Government out of Control.

Fifth Amendment: nor shall private property be taken for public use, without just compensation. Our founders knew that there would be times when our Government would need the power of Eminent Domain but they clearly limited it too “PUBLIC USE”. We all know the word “pubic use” is meant to mean Roads, Bridges, Public Projects and etc. It was never intended for the Government to step in and seize private property under Eminent Domain and then sell said property to another private citizen.

In Kelo versus City of New London, the Supreme Court ruled in favor of the City and clearly ignored our Constitution and our private property rights and our elected officials have done nothing to rectify this issue!

Quote “The importance that private property plays in preserving freedom can easily be seen in the words of those who have completely opposite beliefs in the role of Government.

John Adams versus Karl Marx:

John Adams: the moment the idea is admitted into society, that property is not as sacred as the laws of God, and that there is not a force of law and public justice to protect it, anarchy and tyranny commence.

Karl Marx: the theory of the communist may be summed up in the single sentence: abolition of private property.” End quote: Glen Becks Common Sense p82.

I HOPE I HAVE YOUR ATTENTION!!!

Where in the Constitution do “We The People” grant our Government the authority to **REQUIRE** us to buy Health Insurance or any other product?

My fellow Americans, if we allow our Government to require us to buy health insurance, do you actually think it will stop there? This is clearly Un-constitutional and our elected officials on both sides don’t care. The Progressives/Socialists in this country don’t believe in the Constitution and they think they know better than you how to run your life.

Quote: Nancy Pelosi, 10/22/2009: she was asked by a reporter, where in the Constitution does congress get the authority to order Americans to buy Health Insurance.

Her answer and I quote: **“Are you serious”**

Quote: Rep James Clyburn: when asked “where in the Constitution is the Federal Government authorized to regulate everyone’s health care.

He replied: Quote: “most of what Congress does is not authorized by the Constitution”.

Quote: Senator Obama: Mr. Constitutional Law Scholar said “I think it is an imperfect document” referring to the Constitution of the United States.

America it is time to wake up and Take Your Government Back!!!

The United States Constitution is the greatest Governing Document ever written and it is the sole reason the United States is the Greatest Country on planet Earth.

Please go back and read the founding quotes I listed above. Especially Madison.

Closing note: The Constitution will never be obsolete and anyone who thinks it is obsolete does not understand the Constitution. Our Constitution guarantees **YOUR** rights as an individual, the right to be free, the right to own property and limits our Governments powers.

How can a document that Guarantees your right to be free ever be Obsolete? But more importantly, our founders knew that as our Country aged over time that our Constitution might need to be amended to meet the needs of our Country. So they put in place a Constitutional Amendment Process. And this process has been used 17 times since the 10 original Amendments called the Bill of Rights.

The current problem is that the people who want to fundamentally change this country don't want to use the Constitutional Amendment process because they know they would fail. Therefore they have been using the court system to circumvent the Constitution and putting in place elected officials who what to fundamentally change this country.

It is time to take a stand and join the fight!!
It only costs \$20.00 a year
